Rockville, MD 20857

2631 '99 MAY -4 P2:17

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

Comments: I had major surgery 5 years ago and until
January of This year, I suffered with symptoms and problems
from it. I went to several doctors who prescribed the popular medications
for my problems. All created more side effects & problems than before.
My current M.D. suggested a more natural medicine from a
compounding pharmacy in Colorado. I decided to try it. It
solved all my problems within 2 weeks. I've told all my

98N-1265

C1767

family and friends about my relief.

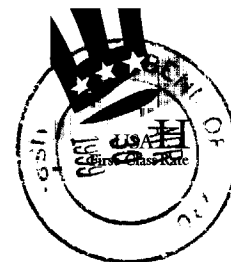

It is so encouraging to find this medicine because so many women suffer from similar problems.

I believe in compounding pharmacies and their products so much that I gave up the benefit of using my pharmacy insurance card that would charge me only \$10⁰⁰ per ~~per~~ prescription and instead pay \$25⁰⁰ a month to have my choice of medicine that works, sent to me.

Since my doctor is a licensed M.D. and prescribed my medicine from the best pharmacy available to me, I am insisting on keeping my right to choose my own doctor and my own pharmacy. Having gone the traditional route with no success, it is very important for me to continue receiving my medicines from compounding pharmacies. No alternative is acceptable for me.
